PROFILE:

As Front-End Developer, I possess impressive technical skills in HTML, CSS, JavaScript, React. I excel in designing and maintaining responsive websites that offer a smooth user experience. My expertise lies in crafting dynamic, engaging interfaces through writing clean and optimized code and utilizing cutting-edge development tools and techniques. I am also a team player who thrives in collaborating with cross-functional teams to produce outstanding web applications. Currently, I'm developing websites like Myntra Clone, To-Do and Calculator and a few. To Check my work please visit my Portfolio website.

Portfolio:
